PROFESSIONAL EXPERIENCE

Revvlift

Dec 2022 - Aug 2023

Web Developer

- Designed and developed RevvLift's official website, focusing on creating a visually appealing, user-friendly interface that aligns with the company's brand identity.
- Performed an in-depth performance analysis of the website using Google Insights, pinpointing improvement areas. Optimized loading speeds, implemented SEO strategies, and enhanced the user experience to boost search engine rankings and achieve performance objectives.

VR Della - Trichy

Aug 2023 - Present

Junior Software Developer

Front End Development

- Developed and maintained the admin panel for the Voyance project, a portable ECG product, ensuring seamless management of system data and user interactions.
- Contributed to the development of both the application and admin panel for Valiantt Info, a background verification platform, focusing on creating responsive interfaces and efficient workflows.
- Implemented intuitive user interfaces and dashboard features for admin panels, enabling efficient data visualization and system management.
- Integrated APIs to enable real-time data synchronization and seamless communication between front-end and back-end systems.
- Leveraged modern React.js features such as hooks, context API, and reusable components to streamline development and optimizing the code for the better performance.
- Optimized application performance by implementing lazy loading and code splitting, reducing initial load times and improving the overall user experience.

EDUCATION

Bannari Amman Institute of Technology, Erode
Bachelor of Computer Science and Engineering

2018 - 2022
CGPA - 7.3/10
